

Press Release

Michael Dyson Associates Ltd Secures a Place on CHIC's Healthy Homes Framework.

Michael Dyson Associates Ltd is delighted to announce that it has been successfully appointed to CHIC's Healthy Homes Framework under Lot 1 Consultancy Services. This achievement reflects our commitment to delivering high quality decarbonisation and building safety services and solutions in collaboration with CHIC.

About the Framework:

The Healthy Homes Framework is an integral part of CHIC's commitment to providing compliant procurement solutions and commercial support to its members. This comprehensive four year framework encompasses a diverse range of solutions designed to enhance residential properties and improve tenants lives.

CHIC's members, including more than 200 housing associations and local authority affordable housing landlords, are all now working through their own solutions to achieve net zero targets. So, following consultation, CHIC has established this new framework to enable its members to engage all the support needed to survey, plan and deliver retrofit and building works and services.

Compliant with PAS 2030 and 2035 and Building Safety Bill standards, it serves as a unified solution for landlords to realise their net-zero emissions goals. By integrating goods, works and services, it streamlines the process of surveying, design, coordination, assessment and implementation, making sustainability and safety more attainable.

Framework Information:

- **Framework Title: Healthy Homes**
- **Framework Duration:** 11/04/24 to 10/04/28
- **Scope of Services: Lot 1: Consultants, Lot 2: Works and Services, Lot 3: Digitisation**

About CHIC:

CHIC (Communities & Housing Investment Consortium) is a collaborative, not for profit, member owned and governed consortium that delivers compliant procurement solutions and commercial support to its members in partnership with the supply chain. CHIC secures savings for its members and is committed to the delivery of improved environmental outcomes and added social value through all of its services.

How CHIC Members Can Get in Touch:
